

# Jeep Grand Cherokee | 1993-1995 Car Radio Removal

## **STEP 1:**

Locate and remove two (2) phillips screws located directly above the radio.

## **STEP 2:**

Locate and remove two (2) phillips screws located below the radio at the top of the trip computer location.

## **STEP 3:**

Remove the ashtray. In order to remove the ashtray, push down the silver colored metal tab at the top of the ashtray.

## **STEP 4:**

Once the ashtray is removed, locate and remove two (2) phillips screws that are located at the rear of the ashtray opening.

## **STEP 5:**

Once all screws have been removed, the dash panel can now be pulled off and removed. With your hands, grab the top of the dash panel near the radio and pull until it separates from the rest of the dash.

## **STEP 6:**

Once the dash panel surrounding the radio has been removed, the bolts securing the radio can be seen. Locate and remove two (2) 10mm bolts that secure the radio.

## **STEP 7:**

Pull the radio out of the dash. Unplug the black cable, 2 plastic wire harness connectors, as well as the single wire from the rear of the radio.
